

### College Credit while in High School

Through Eastern Promise we are able to offer college level credit while students are in High School. Please note that this is not for all students. Student should be ready for the rigor of these classes. Often students may take a class that has the option for college credit and if they can demonstrate the level of proficiency they can earn that credit or they may earn the High School credit without the college credit.

**A couple of real life examples:** A student could earn 25 of the 90 required credits for a 2 year Associates degree in Engineering Technology at BMCC. CET 111 3cr, CET 145 3cr, CET 112 3cr, CS 120 4cr, COM 111 4cr, MTH 112 5cr and WR 121 4cr. A student could earn 31 of the 95 credits for a 2 year Associate degree in Agriculture production: Livestock Option at BMCC. AGM 221 3cr, AGR 111 3cr, ANS 201 3cr, CSS 100 3cr, CSS 201 3cr, ANS 231 3cr, MTH 70 5cr, COM 111 4cr, WR 121 4cr.

Not all classes are offered every year so planning ahead is important.

CET 111 Introduction to Engineering	BIO 102 General Biology
CET 112 Computer Aided Drafting	BIO 103 General Biology
CET 145 Engineering Graphics	COM 111 Fundamentals of Speech
AGM 221 Metals and Welding	CS 120 Concepts of Computing
CSS 100 Soils & Fertilizer	CH 101 Introductory Chemistry
CSS 201 Principles of Crop Science	MTH 111 College Algebra
ANS 231 Livestock Evaluation	SPAN 101, 102, 103
AGR 111 Agriculture Computers	WR 121 English Composition
ANS 201 Intro to Equine Science	CS 160 Intro to Programing
ANS 198 Reproduction Clinic	CS 195 Web Development.
HE 116 Health Careers	CA 101- Success 101
MTH 70 Elementary Algebra	ANS 121- Animal Science
MTH 95 Intermediate Algebra	HORT-100- Plant Science

BIO 101 General Biology
